Proposed Cut 3 Mining Works at Debswana Diamond Company’s (Employer) Orapa Mine are planned to commence in January 2021 and will run for a period of 5 years, with an option for a 5 year extension to 2030. Prospective Contractors are required to submit proposals for the Works under the following scenarios:

A. Employer Supplying Primary Mining Equipment including:
   • 250mm to 311mm Blast Hole Drill Rigs (Electric / Diesel)
   • 58m³ bucket size Shovels; and
   • 300 Ton Trucks

Under this scenario the successful Contractor will maintain and operate the equipment in accordance with Original Equipment Manufacturer (OEM) and / or Employer standards. The Contractor is at liberty to propose additional equipment to complement the one provided by the Employer to ensure successful execution of the project.

The Contractor shall provide Support Equipment which shall be in line with Employer’s Equipment standards.

B. Contractor Supplying Primary Mining Equipment

Under this scenario the Contractor shall supply Primary and Support Equipment that meets the Employer’s standards.

For both scenarios, auxiliary equipment shall be provided by the Contractor, including light vehicles, super Luba, forklifts etc.

In consideration of the foregoing, established and reputable mining companies are invited to express their interest and to submit their company details as described below for prequalification prior to tendering. Company information should include but not limited to the following:

   • Capability statement that includes a list of projects done in the last five years (The company must have a record of annual production of not less than 50 000 000 tonnes)
   • Preliminary financial proposals for executing the Works
   • Expertise statement that includes CV’s of candidates to be involved with the project
   • Method statement indicating how the Works will be carried out
   • SHE (Safety, Health and Environment) Plan and performance records
   • Project organogram
   • Audited financial records for the last 5 yrs.

The Scope of Works shall include;

   • Site preparation
   • Drilling
   • Blasting
   • Loading
   • Hauling
   • Dumping
   • Haul Roads maintenance
   • Equipment Maintenance (Shovels, Haul Trucks & Support Equipment)
